EXTRA SESSION

Of Congress Possible-Why McKinley Will Visit Chicago,

MOMENTOUS MATTER APPEARS

On the Horizon of State Affairs-Fact That War Exists in China Cannot Longer be Ignored.

decision of the President not to go to Chicago does not signify necessarily that he contemplates calling Congres together in extra session, in indicates that the possibility of such action becoming necessary is realized. Hereto-fore, as grave as the Chinese situation has been and an great as has been the President's anxiety for the safety of our people at Pekin, conditions have no Washington, 'At Canton he has been in stant communication by telephone and was as able to conduct business from there as he would have been at the white house. The pressing necessity of his remaining in Washington has volved with the the past day or two. since the decision that he could not g to Chicago was not reached earlier than yesterday, when he held a long and important conference with Secretary Root and Assistant Secretary Adee. With the posibility of it becoming necessary to call an extra session of Congress, the necessity of the President's remaining in Washington would be apparent.

Reached a Crisis.

What appears to be the fact is tha the administration is not in possession of information of sufficiently definite character to warrant a determination to-day, whether there is need for the meeting of Congress immediately upon the knowledge of developments which would render it necessary. The Chinese within twenty-four hours condition may take a turn one way or the other. So little is known of the disposition of the Chinese government that there is no means of judging whether the reply sent to Li Hung Chang will be received in a compliant spirit or one of defiance, and the warst must be prepared for.

A stage has been reached where

events move rapidly at the seat of military operations, and if there is not a speedy collapse of Chinese resistance the fact that war actually exists cannot long be ignored. The hope is entertained that the spirit of hostility in China will be broken by the vigorous course of the allied forces, and that the Chinese government, recognizing the sentiment of justice which inspire the United States government, will at once come to terms; but this hope cannot be relied on with security.

The New Sartorial Sin.

New York Press: The "shirt-waist man" seems to be the bull's-eye of the present silly season. Plenty of non-sense has been written about himvery little sense. The shirt-waist man ould be the mun who wears a shirtwaist. Did you ever see one? There are a plenty of youths and a few men old enough to reason for themselves who have been quick to selze any ex-cuse for parading the streets and din-ing in the presence of women with their coats and waistcoats off, but did they wear shirt-waists? Not a bit of it!

hey wear shirt-waists? Nora bit of it!
When we were little boys we wore
shirt-waists. Their cuffs rolled back
and both these and their collar were an
mseparable part of the garment. These
waists were ornamental. They had rows
of plaits and pockets, and their finish
and style marked them fit outer covering. Best of all, they did not merely
have flapped extensions which were
maked into the ton of the trougers, but tucked into the top of the trousers, but ended in bands and the juncture it was incessary to conceal. These were rt-walsts. Our great-grand-fathers ty then, too, adding a pleasing full-es and soft stocks whose lace ends claded and beautifed the bosoms. Do we see any lattempt at this to-

We see men with shirts just plain shirts—with collars and cuffnames himself the appears of the sartorial style, and brazens his way public with the same cheerful affr with which he wanders bare-legged a gaunt sea beach. This is the dressed thing who is called the "sh waist" man; the offense to good the same of the same convention which it hoped cooler weather will remove from the highway.

There are no shirt waists now made

the highway.

There are no shirt waists now made for men. Another season may produce them, but they are not yet. When they appear the few men to whom a beneficial nature has given a form to which the suspender is not a perilous necessity may don them and be glad. The woman's shirt waist has a meaning. It is a bodice. It is a part of her overdress—when it is made in one piece (though heaven knows we see enough sins on this ground also). But the fontless thing has not her excuse. Even our great grandfathers did not consider the shirt waist, befriided as it might be, a costume de rigeur. When they dined they wore a coat.

Let us hear, no more of the shirt-waist man, soberly speaking. For, after all, it is a sober question. There is a moral element involved in correct costumes, which we all appreciate whether

a moral element involved in correct cos-tumes which we all appreciate, whether we know Herr Teufelsdrockh or not. But if we must hear more of him, let us give him his true name. Let us call him The-Man-in-His-Shirt-Sleeves.

Could Not Afford to Change.

Chicago Times-Herald-When a waiter in a San Francisco hotel was offered still a sant remains onset was offered still a month, with board and lodgings, to go into household service in Honolu-lu, his answer was that he could not afford the change, because his tips far exceeded the proposed wages.

Hindoo Tale of Pneumatic Speed.

Lahore Tribune: Letters dropped in a box in Paris are delivered in Berlin within an hour and a half, and sometimes within thitty-five minutes. They are whisked through tubes by pneumatic nower.

A Life and Death Fight.

Mr. W. A. Hines, of Manchester, Ia. writing of his almost miraculous ea-cape from death, says: "Exposure afwiting of his almost miraculous excape from death, says: "Exposure afcape from death, says: "Exposure after measies induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost 4500 a bottle. Hundreds have used it on my recommendation and all say, it never falls to cure Throat, Chest and Lung troubles." Regular size 50c and \$100. Trial bottles free at Logan Drug Co.'s drug store.—1.

SWEEP THE WEST.

Delegate Flynn Predicts a Great Republican Victory-All in Accord With McKinley on the Pacific

WASHINGTON, D. C., Aug. 26,-Delegate Dennis Flynn, of Oklahoma, who was among the callers at the white house to-day, has just rejurned from an extended trip to the west as far as California, and speaks in the most glowing terms of the conditions exist-ing in that section of the country, and predicts that the Republicans weep the west by an overwhelming majority this fall.

majority this fall.

"In my journey across the continent from California to Washington," said Mr. Flynn, "I only came across one man who was advocating the free contage of silver. He was a resident of Arlzona, and I told him I wanted to get a good look at him, as he was the only person I had seen who believed in 18 to 1. During my trip I talked with the leading business men and merchants of the states I visited, and I can tell yon that they take uo stock whatever in the cry of the Democrats against so-called imperialism. They do not look upon it as a matter inviting the least attention, and characterize the cry of the Bryanites as 'bosh.'

In Accord With President's Policy. In Accord With President's Policy.

"There is not a single state in the west, in my judgment, which believes west, in my juogment, which believes in anti-imperialism, and they are all in necord with the policy of the President in dealing with our new dependencies, and are going to uphold him in his course at the polis in November. The west is enjoying an era of great prosperity, and every man who has a dollar and a half in his pocket is satisfied with the present administration and is going to vote for another four years of Mc-Kinleyism and Republican good times. Okinhoma is enjoying the most prosperous times in its history, and if we had an electoral vote it would be cast for McKinley and Roosevelt this fall. The free silver issue is as dead as increased business activity can make it. Why, even Mr. Bryan himself appears to be too busy with other matters to mention it in any of his speeches. I predict that the cry of imperialism brought forth by the Democrats will be relegated to oblivion before the November elections, and that Mr. Bryan will receive a worse defeat than he did four years ago." in anti-imperialism, and they are all in will receive a worse defeat than he did four years ago."

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Aug. 25 .- Money on call steady at 114 per cent. Prime mercan-tile paper 4@5 per cent. Sterling exchange steady with actual business in bankers' bills at \$4 87% for demand and at \$4 84% for 60 days; posted rates \$4 85 @4 85½ and \$4 88½@4 89; commercial bills \$4 83%@4 84½. Bar sliver 61½c; sliver certificates 61½@62½c. Mexican

silver certificates 61½665½c. Mexican dollars 48½c. State bonds easier. Railroad bonds irregular. Government bonds steady. Weakness was pretty generally manifested throughout the entire stock market to-day, but as the offerings of stocks were only fairly large in Brooklyn Transit, not much of an inroad was made on prices. Early hesitancy was succeeded by a rising market, but the entire list weakened in the late tradings ntire list weakened in the late

sit. Numerous favorable weekly sit.

Numerous favorable weekly statements of earnings came to hand, but their showings were without avail in sustaining prices. Respecting the recent activity and strength in St. Louis Southwestern, the July statement made known to-day is explanatory. The report showed a gain of 60 per cent in net earnings over the corresponding period a year ago. Estimates as to the extent to which the banks had recouped themselves on sub-treasury operations and the interior currency movement for the last week was not borne out in the official report. The discrepancy is thought to be due to the complicated system of averages which does not indicate the bank's real strength.

Results in the stock market this week were disappointing to bulls and bears alke. While the market was unresponsive to good news, unfavorable factors failed to create any marked liquidation. The floating supply of stock is admitted to be small, owing to the absorption of proginent interests who

tors falled to create any marked iduidation. The floating supply of stock is admitted to be small, owing to the absorption of prominent interests who have perfected or are projecting various deals. With the holdings of investment interests to be considered, caution necessarily surrounds bear operations. No important bull pools developed, but there were some movements which had a manipulative appearance. The best illustration of the narrowness of the market was attested by the wide changes which occurred in special stocks when a large seiling or buying ord, was executed. Taking special stocks when a large selling obuying ord, was executed. Taking into consideration the changes in market values that were made through these operations, the paucity of ready supply, and the inability of the market to digest easily was apparent. When conditions like this arise general interest in fluctuations wanes and the market less they over to traders whose onket is given over to traders whose erations are of the day to day or What produces the general stagna in financial markets the world over comes of interest and opinions var nese situation agitating civilization,

to the cause. With the unsettied Chinese situation agitating elvilization, measures to recoup the treasuries of the various nations involved for the immense sums expended is heard. American financiers are well fortiled against any possible unusual drain of gold, and banks are steadily strengthening their position by increased circulation.

The position of the Bank of England was considerably strengthened by receipts of gold from here and the colonies. While bororwing heavily in the open market, it maintained its high rate of discount and reduced loan liabilities by many millions. Retrenchment, as for some time past, continues to be the polley of the Bank of France. Rumors connect the strong position of the bank with preparations for financing the reported Russian loan.

The bond market showed periods of activity and strength with exceptionally heavy trading in the St. Louis Southwestern issuer. Irregularity became quite marked in the closing days of the week.

United States refunding 2's when is-

week.
United States refunding 2's when issued declined ¼ per cent, but the new 4's advanced 1 per cent in the bid price.

Breadstuffs and Provisions.

CHICAGO-Weakness at Minneapolis

CHCAGO—Weakness at Minneapolis and clearing weather in the morthwest were depressing factors in the wheat market here to-day and September closed %01e lower. Corn closed a shade and oats %e down. Provisions at the close were 7½012½ depressed.

Wheat opened steady on a little bull sentiment left over from yesterday, out the remainder of the session saw the bears in the ascendant. Trade was quiet and throughout there was a fair amount of liquidation both local and outside. Liverpool cables were not encouraging and bearish sentiment was further encouraged by clearing weather in the morthwest. Minneapolis was weak, and this fact had considerable to weak, and this fact had considerable to weak, and this fact had considerable to do with sentiment here. The decline at Minneapolis was taken to mean an improvement in northwest crop conditions, although reports received here were as gloomy as ever. It was explained after it was all over that the Minneapolis deviate was due to Minneapolis elevator people who changed the seat of their operations, buying in Chicago and selling in their own local market which was 5 cents over Chicago. Nevertheless, Chicago traders did a deal of selling in sympathy with Minneapolis and September, having opened at 74% to 74% dropped at 73% c. cleshing 78% is covered to the covered the covered to the covered to the covered the covered to the covered the covered to the down at 73% 673%. Seaboard clear-ances in wheat and flour were equal to 24,000 bushels. Primary receipts were 1,119,000 bushels. Minneapolis and Du-luth reported 394 crfs against 283 last week and 279 a year ago. Local receipts were 41% cars, sixty of contract grade. Corn was dull. Offerings were light, but the demand was also very slack. The wheat weakness depressed the market early, but some recovery on local support followed and the close was steady. September rold between 38c and 33%c and closed a shade down at 33%c. Receipts here were 137 card.

acre 137 cart.
ing were dull and featureless, of the being the principal business, celpts were 468 cars. September 2114621%c and

liquidation of September while the outside was a fair buyer of January. So-tember pork sold between \$11.15 and \$11.024 and closed 12½ clower at \$11.05; September lard between \$5.506 82½ and \$5.75, closing 7½ clown at \$5.75, pml September ribs between \$7.02½@7.05 and \$7.00, with the close 7½c depressed at \$7.00.

Estimated receipts Monday: Wheat 430 cars; corn 145 cars; oats 435 cars; hogs 30,000 head. The leading futures ranged as follows:
